- Select from a range of popular tank sizes, or choose your own dimensions to build a custom tank perfect for your space
- Range of Colorbond® colours available

Metropolitan delivery to the tank base or concrete pad onsite available – we won't leave the tank on your driveway.^

Proudly Australian Made

Your Tank comes with:

- Inlet strainer with light guard
- Fitted overflow with mosquito screen+
- Fitted outlet with WaterMarked brass ball valve
- The ability to select fitting locations on your tank to save time and money on plumbing
- Finished in Galvanised or a Colorbond® colour of your choice
- Delivery to the tank base or concrete pad onsite^
- Industry leading 20 year corrosion warranty* and 10 year construction warranty*

^ Site delivery to Sydney, Melbourne and Brisbane Metro areas included.

* All our tanks come with a 10 year construction warranty and 20 year warranty against corrosion.

+ Mosquito screen only comes standard in QLD

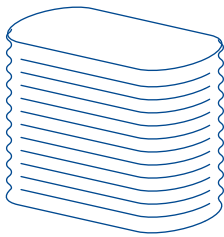

Choose your tank in 5 easy steps

It's important that you get the tank that best suits your unique space and needs. Kingspan **made to measure** steel water tanks are designed to fit perfectly into your space and lifestyle.

STEP 1 Select the shape

Slimline

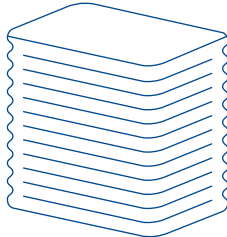

Tank capacities
600-10,000 litres

A great choice for tight spaces, allowing you to maximise the water storage capacity of the area available. Tailor the length, width and height to perfectly fit the space you have.

Modline

Tank capacities
770-10,000 litres

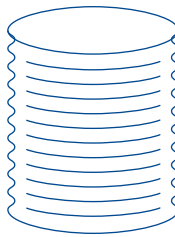

These water tanks have flat ends, giving them a modern look and a smaller footprint than the equivalent capacity Slimline tank.

They help maximise water storage capacity in tight spaces and can be tailored to fit as required.

Round

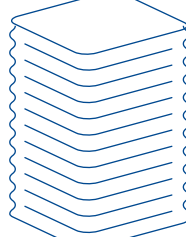

Tank capacities
500-34,000 litres

Traditional round water tanks remain a popular choice, space permitting. Choose your diameter and height to perfectly fit the space you have.

Square

Tank capacities
530-9,000 litres

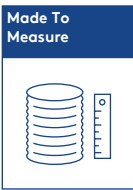

The square shape gives these tanks a smaller footprint than the equivalent capacity Slimline or Modline tanks.

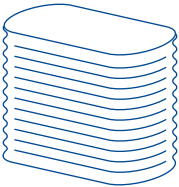

STEP 2 Select the size

Kingspan offers hundreds of sizes and dimension variations across all steel water tanks.

Slimline

A great choice for tight spaces, allowing you to maximise the water storage capacity of the area available.

Here are some of our most popular tank sizes in the Slimline range.

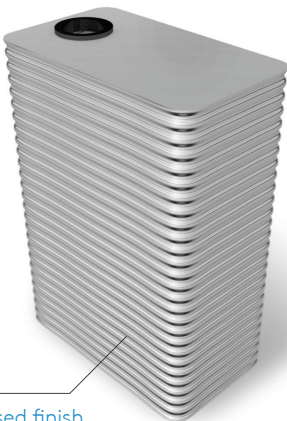

Tank capacities (litres)	2000*	3000*	5000*	7000*
Width (mm)	700	800	1150	1150
Length (mm)	1700	2200	2600	3300
Height (mm)	1860	1860	1860	2020
Weight (kg)	74	93	118	152
Good for:				
Toilet flushes*	336	509	839	1182
Hand watering*	2 hours	3 hours	5 hours	7 hours
Washing machine loads*	25	38	62	88

* Nominal volume prior to fitting size and location on tank.

* Typical values based on industry average

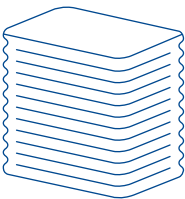

Slimline in Galvanised finish

Modline in Galvanised finish

Modline

These water tanks have flat ends, giving them a modern look and a smaller footprint than the equivalent capacity Slimline tank.

Here are some of our most popular tank sizes in the Modline range.

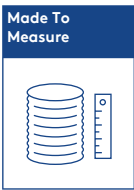

Tank capacities (litres)	2000*	3000*	4000*	5000*
Width (mm)	800	800	800	800
Length (mm)	1400	2000	2600	3200
Height (mm)	2020	2020	2020	2020
Weight (kg)	71	94	117	140
Good for:				
Toilet flushes*	336	547	668	833
Hand watering*	2 hours	3 hours	4 hours	5 hours
Washing machine loads*	25	41	50	62

* Nominal volume prior to fitting size and location on tank.

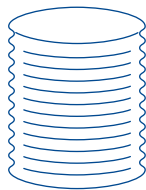

* Typical values based on industry average

STEP 2 Select the size

Kingspan offers hundreds of sizes and dimension variations across all steel water tanks.

Round

Traditional round water tanks remain a popular choice, space permitting.

Here are some of our most popular tank sizes in the Round range.

Tank capacities (litres)	3000*	5000*	10 000*	22 900*
Height (mm)	1860	1860	1860	2320
Diameter (mm)	1500	1900	2700	3550
Weight (kg)	93	120	201	356
Good for:				
Toilet flushes*	547	879	1775	3827
Hand watering*	3 hours	5 hours	10 hours	23 hours
Washing machine loads*	41	65	133	287

* Nominal volume prior to fitting size and location on tank.

+ Typical values based on industry average

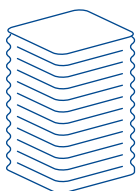

Round in Galvanised finish

Square in Galvanised finish

Square

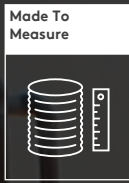

The square shape gives these tanks a smaller footprint than the equivalent capacity Slimline or Modline tanks.

Here are some of our most popular tank sizes in the Square range.

Tank capacities (litres)	2000*	3000*	4000*	5000*
Width (mm)	1100	1300	1500	1700
Height (mm)	2020	2020	2020	2020
Weight (kg)	70	97	112	128
Good for:				
Toilet flushes*	336	509	668	960
Hand watering*	2 hours	3 hours	4 hours	5 hours
Washing machine loads*	25	38	50	72

* Nominal volume prior to fitting size and location on tank.

+ Typical values based on industry average

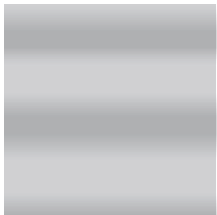

Australian made water tanks using quality Bluescope Steel.
Made to measure to work with your space and give you the perfect fit.

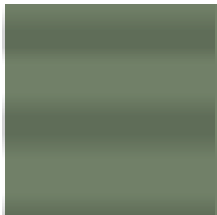

STEP

3 Select a colour

Choose from a huge range of Colorbond® colours, or go for a Galvanised steel finish.

Galvanised

Pale Eucalypt®

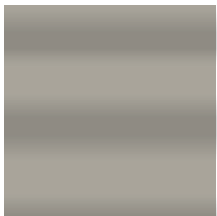

Paperbark®

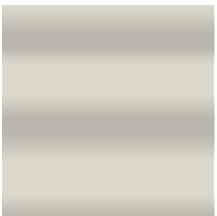

Woodland Grey®

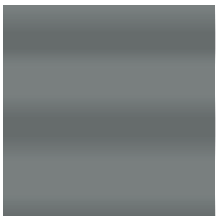

Monument®

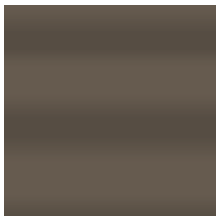

Dune®

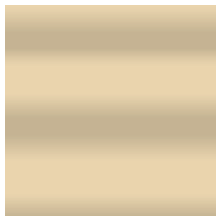

Surfmist®

Windspray®

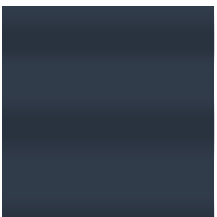

Jasper®

Classic Cream®

Dover White™

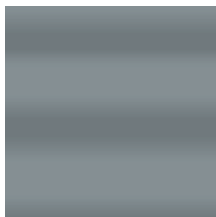

Ironstone®

Manor Red®

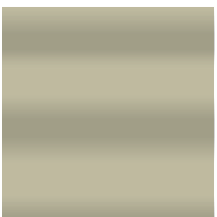

Cottage Green®

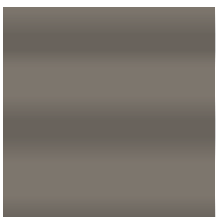

Bluegum®

Deep Ocean®

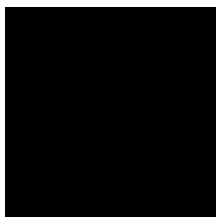

Evening Haze®

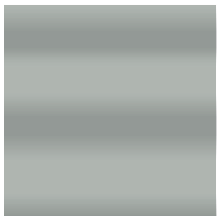

Gully™

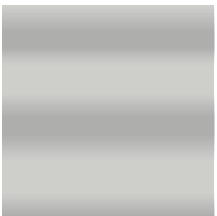

Basalt™

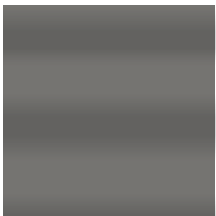

Night Sky®

Shale Grey™

Southerly®

Wallaby™

The COLORBOND® steel colour swatches shown have been reproduced to represent actual product colours as accurately as possible.

However varying light conditions and limitations of the printing process may affect colour tones. Colorbond® colours are available as genuine or painted colours.

Note: The full range of Colorbond® colours are not available in all states. Please check before ordering.

STEP

4 Select fitting position

When placing your order you have the option to nominate your fitting locations.
The standard fittings available are:

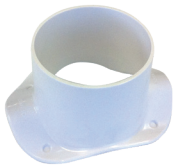

INLET

400mm inlet strainer with light guard fitted in tank lid.

OUTLET

25mm zinc outlet with water-marked brass ball valve fitted at the bottom of the corrugation of the tank wall.

OVERFLOW

90/100mm overflow⁺ fitted on the top corrugation of the tank wall.

Default fitting position	Inlets	Outlets	Overflow
SLIMLINE	1 x 400mm inlet strainer with light guard Position A	1 x 25mm fitted outlet with watermarked ball valve Position 6	90/100mm fitted overflow Position 12
MODLINE	1 x 400mm inlet strainer with light guard Position A	1 x 25mm fitted outlet with watermarked ball valve Position 6	90/100mm fitted overflow Position 12
ROUND	1 x 400mm fitted Inlet strainer with light guard Position 12	1 x 25mm fitted outlet with watermarked ball valve Position 1	90/100mm fitted overflow Position 12
SQUARE	1 x 400mm fitted Inlet strainer with light guard Position H	1 x 25mm fitted outlet with watermarked ball valve Position 1	90/100mm fitted overflow Position 12

+ Mosquito screen on overflow comes standard in QLD

STEP 5 Select optional accessories

Select from a range of accessories and pumps including the Evolution MkIV pump and High-flow filter.

Kingspan Evolution MkIV integrated pump system

- Offers the advantage of a quick installation, while improving the appearance of your tank system.
- Whole unit fits neatly on top of and inside the tank, instead of on the wall, resulting in a more efficient use of space and a better overall appearance.
- When the tank runs out of water or when there is a power outage, the pump automatically switches to mains water.

These optional accessories come built into your tank.

*MkIII version shown here

High-flow filter

- This innovative High-flow water filtration system is an Australian first, developed and manufactured exclusively by Kingspan.
- Designed to stop the common issue of overflow flooding, or dampness around the tank.
- Has the ability to handle water collection from the entire roof area and can manage water flow rates of up to 600 litres per minute.

Tank Sensor + App

Kingspan's Tank Sensor is an innovative water tank solution which uses smart tank technology and the 4G network to manage and monitor your water tank remotely.

Integrated Garden Pump

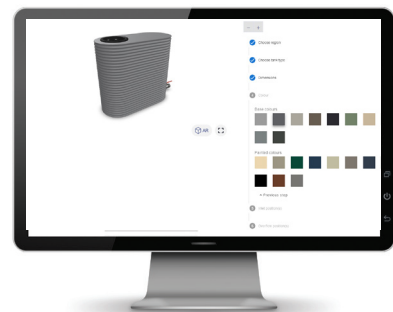

Exclusive to Kingspan Water Tanks, the Integrated Garden Pump System is the first 'Plug n Play' garden pump system on the market. The powerful pump system comes pre-installed inside the tank, making it perfect for DIY projects.

The pump is connected internally to a bucket high tap which will provide outstanding pressure for the most common external watering applications. All pipe work is neatly concealed inside the tank and no additional plumbing or materials are required for the pump installation.

Build your own tank

Choose from a range of popular tank sizes at kingspanwatertanks.com.au or build your own using our **3D Water Tank Builder** tool and create a custom water tank in less than 60 seconds.
